

REMARKS/ARGUMENTS

Applicant requests reconsideration of the application in view of the foregoing amendments and following remarks. The Examining attorney rejected claims 1-9, 14-22 and 24-37 and indicated that claims 10-13 and 23 were objected to but would be allowable if re-written in independent form to include all the limitations of the base claims and any intervening claims.

Claims 24-37 are now cancelled by this amendment.

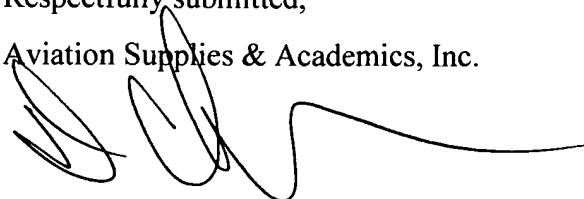

Applicant has re-written claim 10 as new claim 38 to include limitations from its base claim 1 and intervening claim 2. Applicant has also re-written claim 23 as new claim 39 to include limitations from its base claim 16. Applicant respectfully submits that claims 38 and 39 are in condition for allowance.

Applicant has amended independent claim 1 to include the limitation of a "manually rotatable input member." Applicant respectfully submits that none of the cited references teach, suggest or motivate all of the elements of claim 1 as amended and that claim 1 and all claims that depend therefrom, namely claims 2-15, are now in condition for allowance.

Claim 16 has been amended to include the limitation of "adjusting a rotatable input member" to select and store approach times. Applicant respectfully submits that none of the cited references teach, suggest or motivate all of the elements of claim 16 as amended and that claim 16 and the claims that depend therefrom, namely claims 17-23, are now in condition for allowance.

Applicant respectfully submits that this application and all claims currently pending are in condition for allowance. If questions remain, the Examiner is invited to contact the undersigned at the telephone number noted below.

Respectfully submitted,
Aviation Supplies & Academics, Inc.
